Karni Electrical Corporation

OUR PROFESSIONALISM IS YOUR ADVANTAGE

Karni Electrical Corporation is a leading electrical contracting firm specializing in the execution of Electrical, Networking, Security, and Fire Alarm System projects across India. With extensive experience in electrical engineering, we excel in delivering infrastructure solutions for High Voltage (HV), Low Voltage (LV), and Extra Low Voltage (ELV) Electrical Systems.

Our reputation is built on our commitment to detailed engineering, design, implementation, and comprehensive project management. We handle every aspect of a project, from tendering to execution, ensuring meticulous planning and procurement for successful completion.

Since its inception in 1986, KEC (Karni Electrical Corporation) has proudly upheld its workshop legacy, which has been continued and strengthened by Karni Electrical Corporation (KEC). Now under the leadership of Er. Ankit, who brings over 20 years of experience in electrical installations, our company has been associated with prominent projects and has had the privilege of working with esteemed organizations such as Foxconn, Jio, ATL Batteries, CTRLS (Data Centre) and many more.

At Karni Electrical Corporation, we take pride in building strong relationships with our clients, consistently delivering high-quality services that meet and exceed expectations in both Electrical and ELV Systems.

Our Recognition

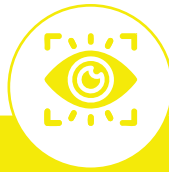

Our Mission Vision & Values

At Karni Electrical Corporation, our mission, vision, and values drive us. Recognized for quality, safety, excellence, and experience, we deliver exceptional solutions and build lasting client relationships.

Mission

- Deliver exceptional electrical engineering solutions that strengthen the nation's infrastructure.
- Uphold uncompromising standards of quality, safety, and integrity.
- Be a trusted partner to our clients and stakeholders.
- Build lasting relationships based on trust and reliability.
- Empower clients' growth through innovation, expertise, and dedicated service.

Vision

- Be India's most trusted and innovative electrical engineering company.
- Drive customer success with precision, reliability, and excellence.
- Build lasting relationships founded on trust and performance.
- Consistently exceed expectations and deliver on every promise.

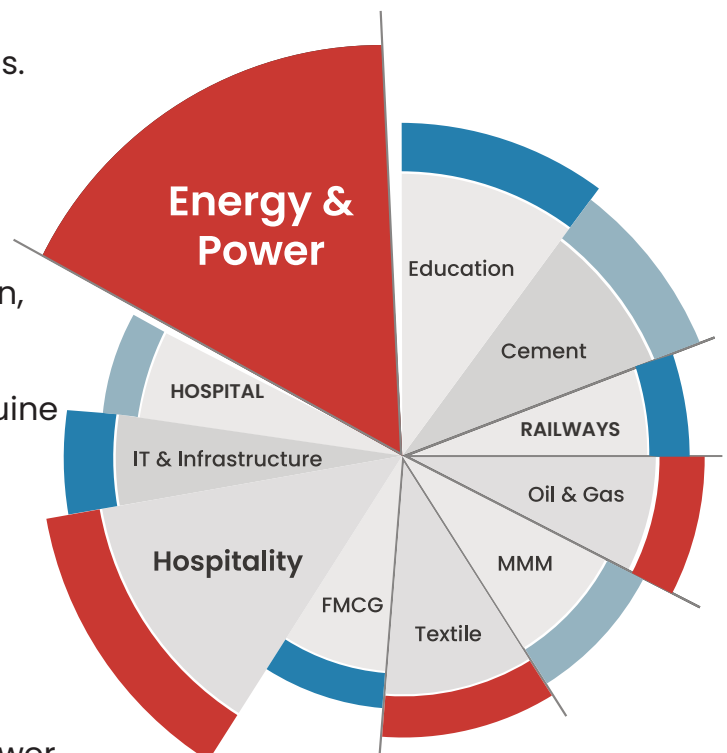

Values

- Family-driven company with integrity, transparency, and excellence.
- Prioritize well-being of employees, clients, and communities.
- Foster respect, collaboration, and trust in every relationship.
- Commit to innovation and fair business practices.
- Embrace sustainability to protect the environment for future generations.

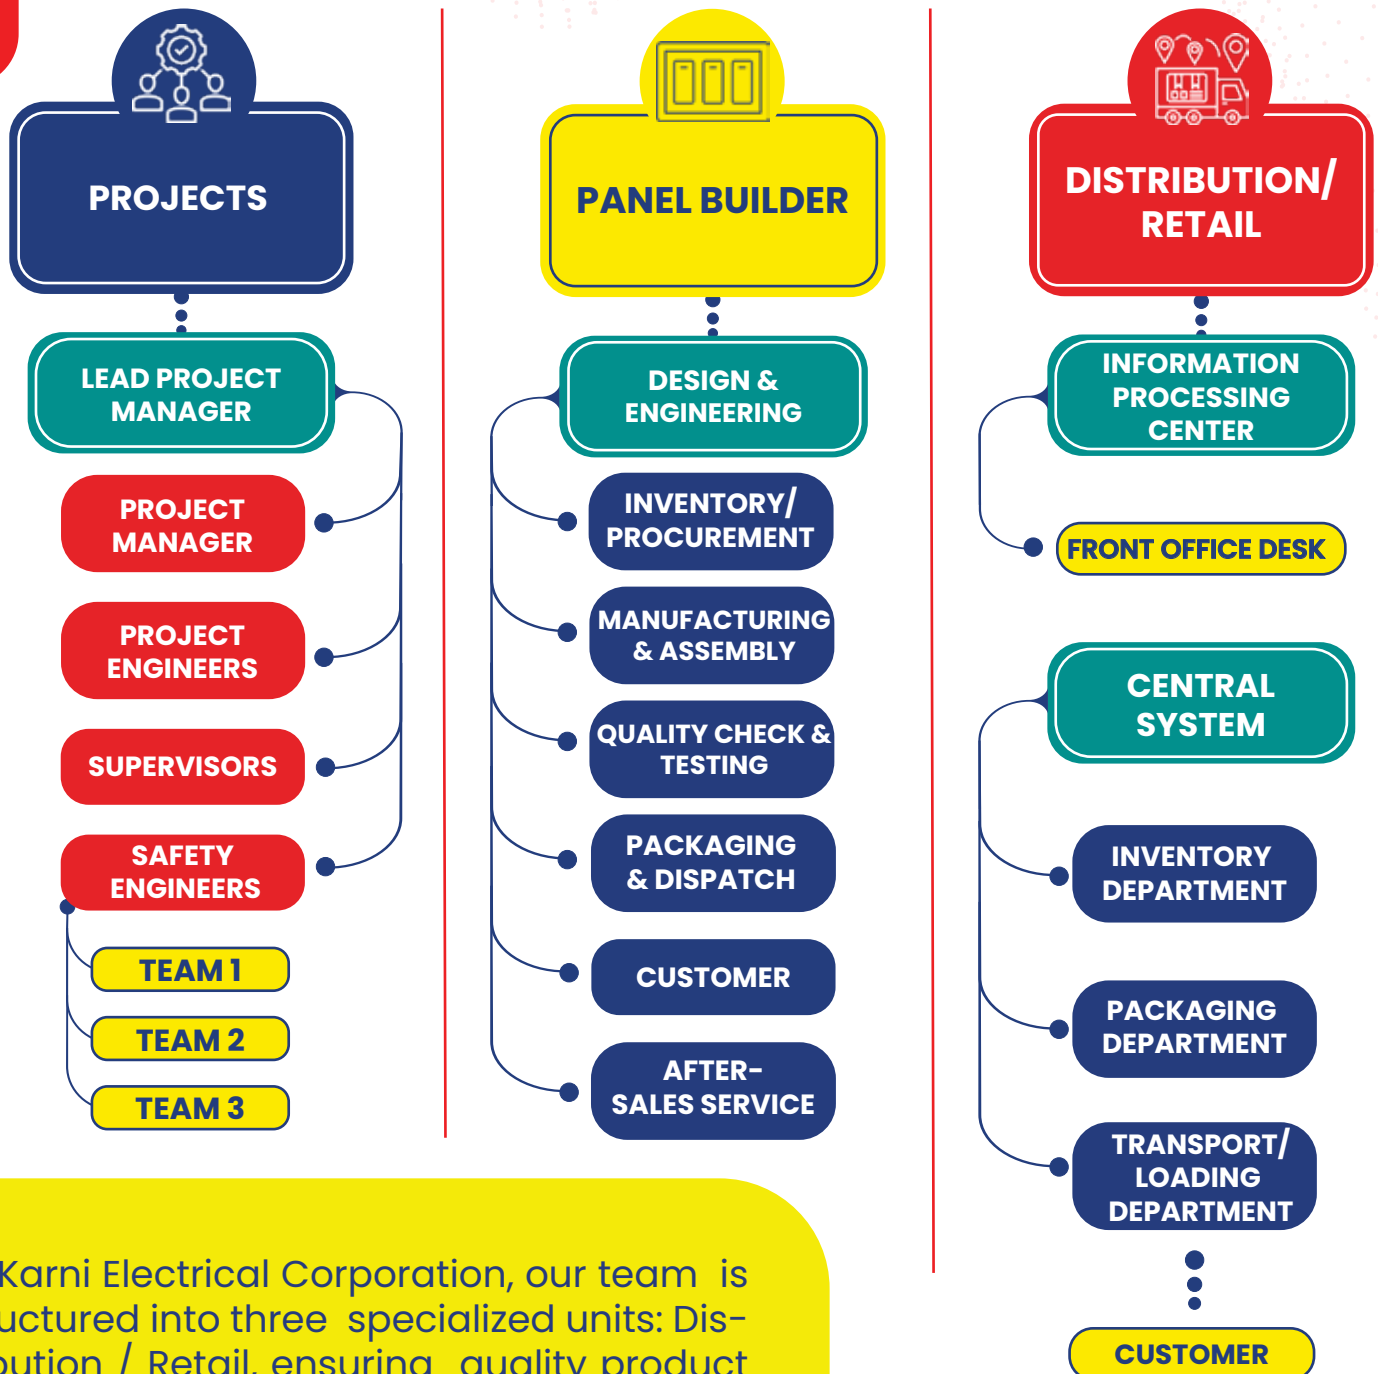

Industrial Solutions

FIELDS OF EXPERTISE,
INCLUDING BUT NOT LIMITED TO :

- Trusted partner for complete electrical needs.
- Supply premium products from top brands (Siemens, Havells, Finolex, ABB, etc.) at competitive prices.
- Expertise in system design, power distribution, installation, automation, and maintenance.
- Authorized dealers & stockists ensuring genuine products, ready stock, and timely delivery.
- Skilled team delivering tailored, end-to-end industry solutions.
- Focus on reliability, efficiency, and safety in every project.
- At KEC, we don't just power systems – we power possibilities.

KEC's TEAM STRUCTURE

At Karni Electrical Corporation, our team is structured into three specialized units: Distribution / Retail, ensuring quality product distribution; Panel Builder, focused on customized electrical panel solutions; and Projects, managing largescale installations from start to finish with precision and excellence.

KEC's SERVICES

Karni Electrical Corporation (KEC) is a trusted name in delivering complete electrical and technology solutions. With years of expertise, we provide reliable, efficient, and innovative services tailored to diverse industry needs. Our skilled team ensures every project is executed with precision, safety, and quality at its core. We combine advanced technology with a customer-focused approach for exceptional results. At KEC, we are committed to powering progress and building lasting partnerships.

Extra Low Voltage (ELV) System

- Structure Cabling System Passive
- IP-PBX System
- Local Area Network (LAN)
- IP CCTV System
- PA System
- Access Control
- Security System
- Building Management System
- Bag Scanner and Metal Detector
- Integrated Passenger Information System (IPIS)
- Digital Clock System
- Parking Management System
- Nurse Calling System

IT Infrastructure and Safety & Security

- IT Integration & Networking
- AV System & Design Consultancy
- Voice Systems & Unified Communication
- Audio Video Integration

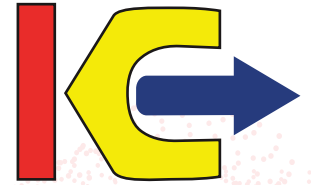

Turnkey Projects

- Electrical – Internal & External Lighting
- HV & MV Distribution Boards
- DG Sets
- Solar System
- Energy Audit

KEC'S PROJECTS

At Karni Electrical Corporation, we are proud to be working on and have delivered exceptional projects for renowned clients like Foxconn, Fortis, Desai Brothers, Flourish International School, and SDC Group. Our commitment to quality, innovation, and client satisfaction drives every project, ensuring we consistently meet and exceed expectations.

Our Latest Projects

These are only a glimpse of the many projects we've been privileged to create. Countless more are unfolding, in progress, and yet to be showcased as our journey continues.

7

KARNI BASKET

Karni Basket showcases our exclusive partnerships with leading brands like Finolex, Havells, Polycab, Siemens, ABB, and more, along with a wide range of trusted names. We deliver complete solutions in wires, cables, switchgear, lighting, automation, motors, and more for every sector.

PANEL SOLUTIONS

Karni Electrical offers efficient, reliable panels for industrial and infrastructure automation.

POWER DISTRIBUTION SYSTEM

- Splits incoming electrical power into secondary circuits,
- Each protected with fuses or breakers
- Ensuring safe, reliable distribution

PROGRAMMABLE LOGIC CONTROL (PLC) SYSTEM

- AC/DC control panels from 24V to 440V,
- Tailored to customer needs.
- Available in standard or custom configurations.

OPERATOR CONTROL STATION

- Project-specific consoles with ergonomic design.
- Available in SS or wooden top finishes
- Customized for ease of operation and maintenance.

DRIVE CONTROL SYSTEM

- Panels for LV systems
- Designed to match varied load ratings and control requirements.

CONTROL PANEL

- Custom or standard panels built with MS, SS, or aluminum.
- Available as empty enclosures or fully equipped
- Meeting IP55 and CPRI standards.

MOTOR CONTROL CENTER

- Available in fixed and draw-out types.
- Compartments and bus chambers customized as per client specifications.

SOLAR SYSTEMS

- Panels designed for efficient solar power management
- Including protection, load control, and grid integration customized to project needs.

From power distribution to solar, Karni Electrical delivers smart, reliable panels built for the future of India's infrastructure.

Backed by innovation and experience, we ensure lasting performance and safety.

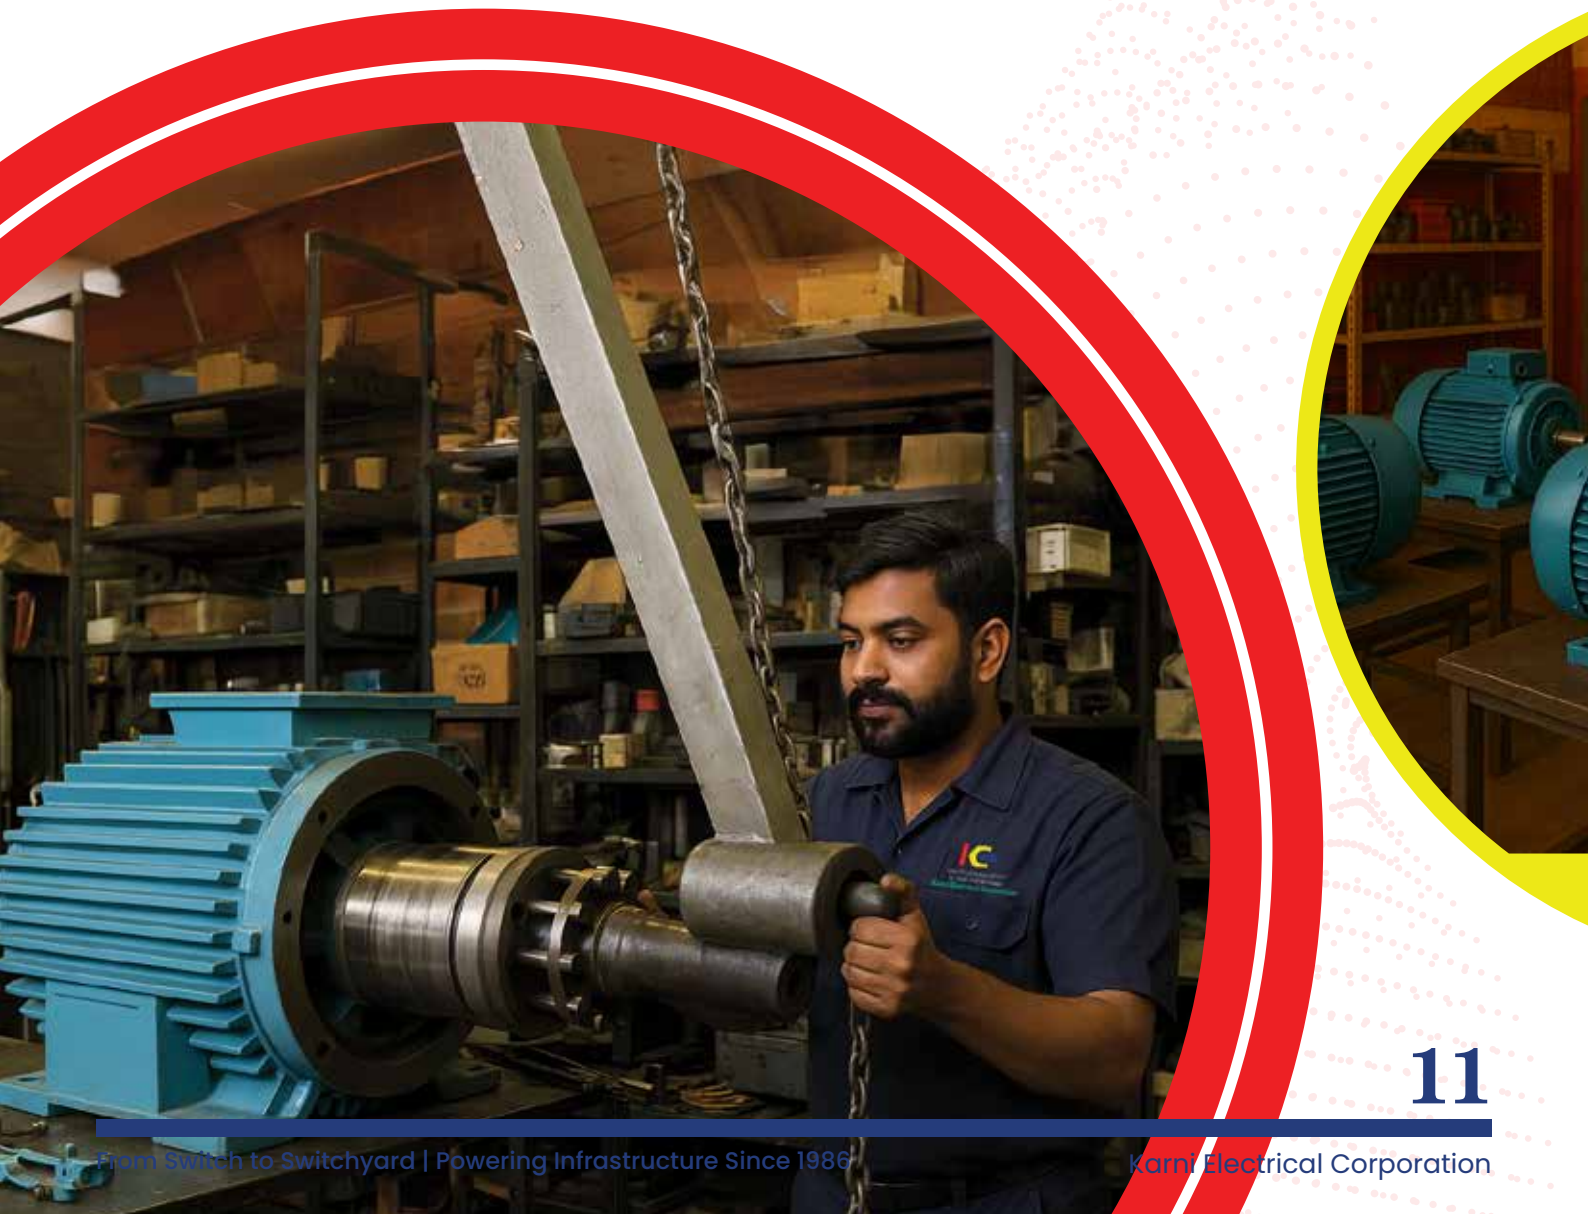

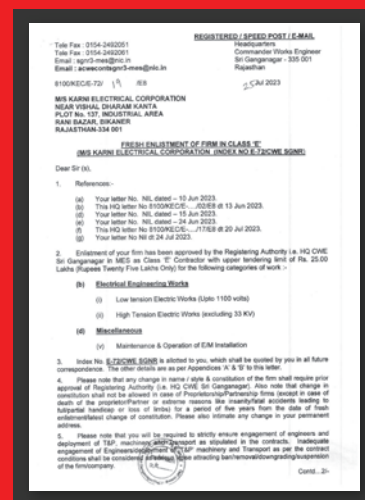

WORKSHOP

Since 1986, KEC (Karni Electrical Corporation) has been a trusted name in motor repair and maintenance. With decades of expertise, our workshop continues to deliver reliable solutions that keep your machines running smoothly.

- Our workshop carries a legacy of excellence in motor repair and maintenance. Over the years, we have built lasting trust with industries across sectors.
- We specialize in AC & DC, HT & LT motors, offering complete repair and maintenance solutions tailored to customer needs.
- Our support continues during and beyond warranty periods, ensuring machines remain in peak condition without disruption.
- A team of skilled and experienced technicians works diligently with deep technical expertise to solve even complex motor issues.
- The workshop is well-equipped to handle all motor challenges, from minor faults to major repairs, with efficiency and care.
- We emphasize quick diagnosis and timely service, minimizing downtime and ensuring smooth operations for our clients.
